- ① % of Federal Poverty Level are Sky Lakes Medical Center's multiplication percentages to calculate Maximum Annual Household Income Levels.
- ② Financial Assistance % is the sliding discount corresponding to the sliding income (Maximum Annual Household Income Levels).
- ③ Size of Household is typically determined by the number of exemptions reported on the most recently filed tax return but can be modified for any additions or subtractions to the household and/or changes in marital status.
- ④ Maximum Annual Household Income Levels are updated annually and based on amounts issued by the Department of Health and Human Services.
